DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-15, drawn to a polymer gel contact mask, classified in class 428, subclass 500.
 - II. Claims 16-31, drawn to a mold, classified in class 249, subclass 117.
 - III. Claims 32-45, drawn to a method of complementary molding, classified in class 264, subclass 328.1.
 - IV. Claims 46-51, drawn to a method of thermal imprinting, classified in class 264, subclass 239.
 - V. Claim 52, drawn to a method of forming a rigid complementary half mold, classified in class 264, subclass 293.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of Group I, Group II, Group III, Group IV and Group V are unrelated among one another. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions of Group I, Group II, Group III, Group IV and Group V have different function because Group I, Group II, Group III, Group IV and Group V are directed to a polymer gel contact mask, a mold, a method of

Art Unit: 1712

complementary molding, a method of thermal imprinting and a method of forming a rigid complementary half mold, respectively.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kuo-Liang Peng whose telephone number is (703) 306-5550. The examiner can normally be reached on Monday-Friday from 8:30 AM to 5:00 PM.
